

Application No.: 10/525,801
Examiner: DO, Robert C.
Art Unit: 2851

AMENDMENT

Please amend the pending application in accordance with the following particulars.

In the Claims

The claims are amended as shown on the following pages under the heading AMENDMENT TO THE CLAIMS. The list shows the status of all claims presently in the application and is intended to supersede all prior versions of the claims in the application. Any cancellation of claims is made without prejudice or disclaimer.

AMENDMENT TO THE CLAIMS

1 (Currently Amended). A wall roll-up screen wherein a the screen is attached between upper and lower rods and the screen ~~can~~ is configured to be rolled up by the lower rod, wherein groove shaped rings processed with a magnetic material ~~such as steel~~ are attached on left and right ends of the upper rod of the screen and magnets ~~is~~ are coupled on left and right ends of the lower rod of the screen, so that the screen is rolled up and then the magnets of the left and right of the lower rod are coupled with the groove shaped rings of the upper rod when the screen is carried, and the magnets and the groove shaped rings are separated when the screen is used.

2 (Currently Amended). The screen according to claim 1, wherein the groove shaped rings have grooves where the magnets ~~can~~ are configured to be coupled with the inner part of the groove shaped rings.

3 (Original). The screen according to claim 1, wherein separate attachment units are attached on the wall in the rear part of the upper and lower rods, and the attachment units are coupled with the upper and lower rods of the screen so that the screen is stably and fixedly attached to the wall.

4 (Currently Amended). The screen according to claim 1, wherein the groove shaped rings of the upper rod and the magnets of the lower rod ~~can~~ are configured to be exchanged in their positions.
